

Redemption TV-series. Overview by Jacklyn A. Lo

GENRE: Drama, Sci-fi, Metaphysic, Time-Travel, History

BASED ON: Redemption novel by Jacklyn A. Lo

LOGLINE: In the near future, in Chicago, a powerful female tech executive finds her world upside down when Satan tries to manipulate her choices.

The Age of Aquarius, into which humankind has stepped over, is characterized by radical changes in ecology and human consciousness.

New higher-level information comes to our planet under the guidance of the Supreme Consciousness.

The task of the Higher Mind is to pull up humanity for the transition to the 6th race. The information comes through Higher intelligence contactees and open-minded individuals who can transfer it through novels, films, articles, etc.

One source of such enlightenment is the novel Redemption by Jacklyn A. Lo and following adaptation of it - Redemption TV-series.

The Redemption plot is focused on several essential concepts:

1. **"Who am I?"**
2. **Reincarnation**
3. **Spiritual Choice**
4. **Liberation**

1. "Who am I?" concept is going as a red line through the whole story from the beginning until the end. This is the kick-off question of a spiritual journey of the protagonist Ann.

2. The reincarnation concept widely known in Hindu was erased from early Christianity by political decision. The philosophy of "only one life" brought significant limitations in understanding "Who am I?" However, the Redemption plot acknowledges the audience the past lives via entertaining time-traveling.

3. Spiritual Choice, also known as Spiritual Test, is always based on the Highest Intangible Values. The Redemption presents some of the Ann's values - Freedom, Love, Courage, Peace, Hope, and Justice, and confirms her Spiritual direction towards Light.

4. Multiple Spiritual Choices towards Light during several lives work as a tool for a short-cut to Human beings' ultimate Goal - Liberation from physical reality. And this is a final destination for the protagonist in the Redemption.

Other high-end spiritual elements such as free-will, God, karma, fate, etc., are delivered to the plot via an entertaining AI-character, the best girl-friend Nina, and a fortune-teller.

As the Redemption Tv-series' screenplay is ready to go, it requires a team of experienced filmmakers ready to tackle such an ambitious project.
